The navigation bar

The navbar links all the 4 main pages, making it fairly simple to navigate through the website and its content.

Login or register

This button of the navbar leads to the login/register page, where a user can log in or create an account based on his e-mail address and password.

In order to log in, one simply has to type in the e-mail and password.

Presentations page

The presentations page contains a list of all the available conferences. Clicking on the dark cyan bar displays all the deadlines of the clicked conference in a “dropdown” manner. All the

deadlines are displayed with their corresponding dates.

Wannabe a chair? for conference ICPADS — International Conference on Parallel and Distributed Systems
Token: aGucG3oZhM

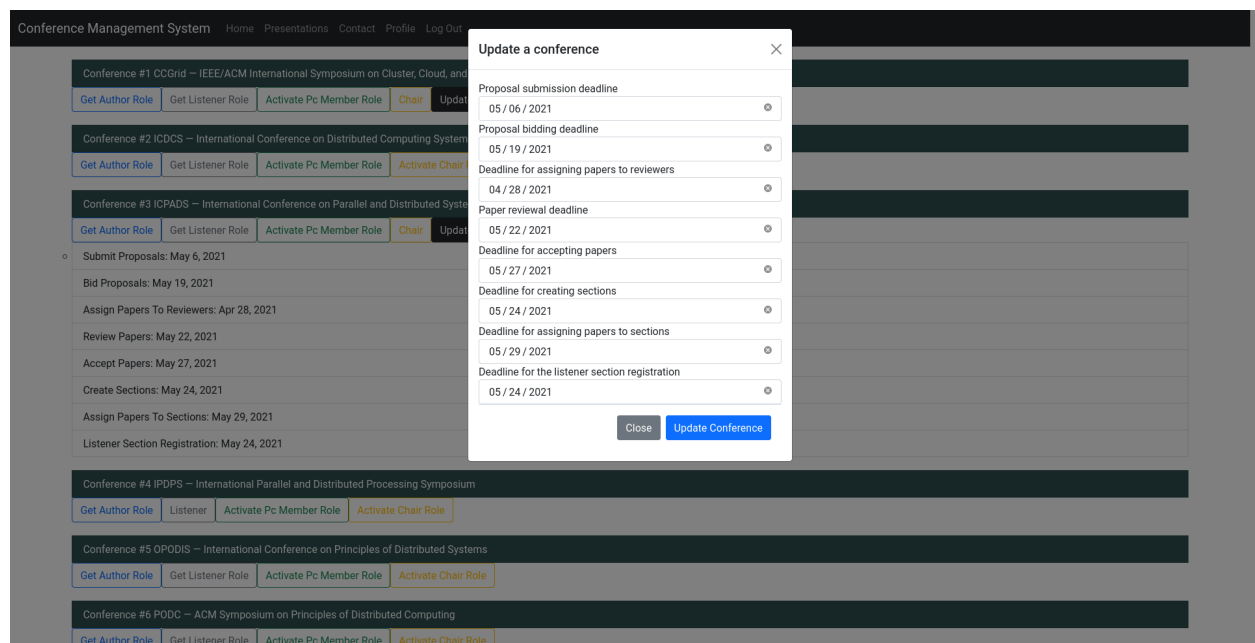

[Reply](#) [Forward](#)

If a user wants to acquire a PC member role or a chair role, they need to enter a token generated by the administrator to obtain the desired permissions. This token is sent to the e-mail of the user:

After the validation of the token, the user will receive the elevated permissions and the associated features.

For example, for the chair role, a user is able to update the conference deadlines by pressing the button labelled with “Update conference”.

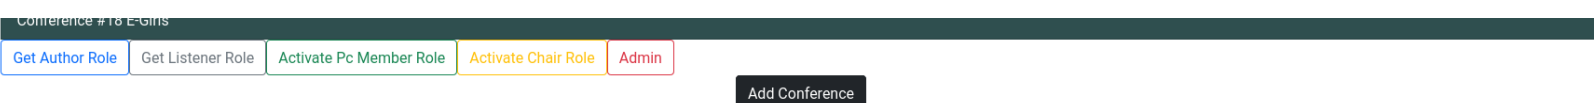

Upon clicking the button, a modal form containing inputs for the dates/deadlines appears.

The user can select a new date for a specific deadline by clicking on the current date and using the date selector that pops up to update the deadline. At the end, the blue “Update conference” button needs to be clicked in order to save the changes.

Creating a conference

In order to create a conference, one must have admin permissions so that the conference creation button is available. It can be found at the bottom of the presentations page.

Pressing the button leads to the following modal form for selecting all the details of the conference i.e the title and all the deadlines related to the paper evaluation process:

The screenshot shows a web interface with a list of conferences and a modal form titled "Add a conference". The modal form contains the following fields and values:

- Title: AAIC® - APPLIED ARTIFICIAL INTELLIGENCE CONFERENCE 21
- Submit Proposal: 05 / 21 / 2021
- Bid Proposals: 05 / 22 / 2021
- Assign Papers To Reviewers: 05 / 23 / 2021
- Review Papers: 05 / 24 / 2021
- Accept Papers: 05 / 25 / 2021
- Create Sections: 05 / 26 / 2021
- Assign Papers To Sections: 05 / 27 / 2021
- Listener Section Registration: 05 / 28 / 2021

The modal form has a "Close" button and an "Add Conference" button. The background shows a list of conferences with buttons for "Get Author Role", "Get Listener Role", "Activate Pc Member Role", "Activate Chair Role", and "Admin".

After clicking the “Add conference” button, the conference should be successfully saved, and it should appear among the other conferences in the list:

The screenshot shows the conference list after adding a new conference. The new conference, "Conference #19 AAIC® - APPLIED ARTIFICIAL INTELLIGENCE CONFERENCE 2021 (virtual conference)", is highlighted with a red circle. The list includes the following conferences:

- Conference #18 E-Girls
- Conference #19 AAIC® - APPLIED ARTIFICIAL INTELLIGENCE CONFERENCE 2021 (virtual conference)

Each conference entry has buttons for "Get Author Role", "Get Listener Role", "Activate Pc Member Role", "Activate Chair Role", and "Admin". An "Add Conference" button is visible at the bottom right.

Features available for authors

An author can press the author button associated with a conference in order to be able to view all the paper proposals of a conference. In case such a button is not available/not activated, the “Get Author Role” button can be clicked.

Afterwards, the user is brought on the author page, where he can add new proposals or update his current proposals.

aaa

Add Proposal

The status of the proposal is visible in the dropdown list of proposal details which appears when clicking on the title of a proposal. If a reviewer approves the topic of the proposal (this means that the proposal can also be rejected), the user can still update his paper for improvements.

Features available for listeners

A listener can access their own features by pressing their role button on a specific conference.

Afterwards, the user can buy a ticket for the chosen conference. A form for entering the banking credentials is displayed.

A screenshot of a web application interface. The header is dark grey with the text 'Conference Management System' and navigation links: 'Home', 'Presentations', 'Contact', 'Profile', 'Log Out'. On the right of the header, there is a 'Update available' notification and a 'TEST MODE' button. The main content area is dark grey. It starts with 'Hello admin !' followed by the question 'Would you like to purchase a reservation for CCGrid — IEEE/ACM International Symposium on Cluster, Cloud, and Internet Computing ?'. Below this is a 'Purchase' button and the text 'Purchase Token:'. In the center, a 'CMS Manager' modal window is open, titled 'Payment widgets'. It contains a form with the following fields: an email field with 'johndoe@yahoo.com', a card number field with '2039861572898457', and an expiration date field with '05 / 22' and a CVV field with '1642'. At the bottom of the modal is a blue button labeled 'Pay \$20.00'. In the bottom left corner of the page, there is a 'Powered by stripe' logo.
